How to unlink BVU’s iPad from your iCloud account

1. Log into iCloud with your user name and password mentioned in the e-mail

2. Click on Find My iPhone
3. Click on All Devices

4. Find the iPad you returned back to BVU and click on it. (Note: it will NOT actually be named ‘BVU’s iPad’) It will have a gray circle to the left of it. Be careful that this isn’t an iPad or device of your own.

5. Click the circle with an X in the middle of it to unlink and remove the device from your account.
6. Click **Remove**.

Our iPad is now removed from your account.

We greatly appreciate your help working with us on this. Thank you!
